INTERNATIONAL ACCOUNTING OUTSOURCING

Accounting capacity for UK and US practices and businesses.

Dedicated offshore accountants, assignment-based outsourcing and white-label delivery, from a chartered accountancy and advisory firm founded in 1997.

Founded	1997, Surat, India
Markets	US, UK, Canada, Australia, UAE, Singapore, India
US office	Maxiple Global Services LLC, Frisco, Texas
Certifications	ISO 9001:2015 and ISO/IEC 27001:2022 (scope: India and the United States)
Engagement	Dedicated, part-time or assignment-based. No public price list.

How it works

We prepare the work in your clients' own accounting software, to your templates and posting rules. Your practice reviews and approves it. Final professional approval, statutory submissions and the client relationship stay with you, unless we agree otherwise in writing.

SERVICES

What we can take on.

Bookkeeping and Bank Reconciliation

Day-to-day bookkeeping, coding, and bank, card and loan reconciliations in your clients' accounting software, prepared to your chart of accounts and posting rules.

Accounts Payable and Receivable

Supplier bill capture and coding, payment-run preparation, sales invoicing, credit-control schedules and allocation of receipts.

VAT Return Preparation and MTD Support

Outsourced VAT preparation under Making Tax Digital: workings, scheme-specific treatments, ledger reconciliations and a query list for your review.

Year-End Accounts Preparation

Outsourced year-end accounts preparation: trial balance clearance, accruals and prepayments, fixed asset and depreciation schedules, and draft accounts or working papers in your format, ready for review and sign-off.

Corporation Tax Preparation Support

Tax computations and CT600 workings prepared from the finalised accounts, with capital allowances, adjustments and supporting notes for your tax team to review, approve and file.

Self-Assessment Tax Return Support

Data entry and computation support for personal tax returns covering employment, self-employment, property and investment income, with schedules for your reviewer.

Payroll and PAYE Support

Payroll processing, payslips, pension auto-enrolment data, RTI submission preparation and year-end documents, run in your payroll software or BrightPay.

Management Accounts and Financial Reporting

Monthly management packs, budget-versus-actual analysis, cash-flow views and KPI reporting in your format, so your team can concentrate on commentary and advice.

Accounting Cleanup and Catch-Up Services

Backlog clearance for late or neglected books: reconciliations, suspense clearance, missing-document lists and a clear status report, so filings can be brought up to date.

Dedicated Offshore Accounting Teams

One or more accountants who work only on your practice, trained on your procedures and supervised by RBC.

Virtual Finance Department

For UK SMEs: an outsourced finance function covering bookkeeping, payables and receivables, payroll, reporting and year-end, with a named lead and regular review meetings.

Hospitality Accounting

Specialist outsourced accounting for hotels and hospitality businesses: daily revenue and settlement reconciliations, payables, payroll accounting and monthly owner reporting.

ENGAGEMENT MODELS

Choose how you want to work with us.

Dedicated Full-Time Accountant

A dedicated offshore accounting professional working as an extension of the client's existing team.

Works only on your practice or business • Trained on your procedures, software and templates • Supervised and reviewed by RBC • Suits steady, recurring workloads

Dedicated Part-Time Accountant

Flexible accounting support for practices requiring additional capacity without full-time recruitment.

A fixed share of a dedicated accountant's week • Scale up as your client base grows • Good for smaller practices and seasonal peaks • Same supervision and review as full-time

Fixed-Fee or Assignment-Based Outsourcing

Suitable for bookkeeping, VAT preparation, year-end accounts, backlog clearance and seasonal workloads.

Scope, deliverables and deadlines agreed up front • Ideal for pilots, catch-up projects and peaks • Clear hand-over of finished work • Can move to a dedicated model later

Fees depend on scope and volume and are agreed in writing. We do not publish a price list. Request a custom quote on our website or by email.

OUR PROCESS

Six stages from first call to ongoing delivery.

1. Initial Consultation

A short call to understand your practice, workload and what you would like to hand over.

2. Understanding Your Practice and Requirements

We review your software, templates, deadlines and review standards.

3. Confidentiality and Engagement Documentation

Confidentiality, data protection and engagement terms are agreed before any client data is shared.

4. Resource Allocation and Pilot Assignment

We allocate the team and start with a defined pilot so you can judge quality first-hand.

5. Accounting Delivery and Quality Review

Work is prepared, reviewed inside RBC and delivered to your deadlines.

6. Ongoing Reporting and Performance Monitoring

Regular reporting on workload, turnaround and open queries, with scheduled reviews.

INFORMATION SECURITY

Certified management systems and written safeguards.

RBC Global Advisors Private Limited holds ISO 9001:2015 (certificate QMS/C337/0726) and ISO/IEC 27001:2022 (certificate ISMS/2AC6/0726), issued by Quality Control Certification and valid from 6 July 2026 to 5 July 2029. The certified scope is accounting, taxation, audit, company formation and related financial and business advisory services to clients in India and the United States. UK client work is not named in the current scope.

ISO certification does not on its own establish compliance with UK GDPR or other privacy laws. We act as your processor under a written agreement and agree safeguards for transfers of personal data. Details: rbcglobalgroup.com/information-security.html
